A GRADUAL RETURN TO FULL CAPACITY

While Provincial Health Orders allow us to return to 100% capacity, we have heard from our public that you expect the VSO to maintain comfort spacing and reduced capacity for the foreseeable future.

This Winter/Spring we will allow parties that wish to be seated together to do so. Subscribers can return to their normal seats. However, we will continue to default to putting two empty seats between each order in a row to control capacity. We will not exceed 60% of normal seated capacity on our regular series concerts. We will commence full capacity for special performances and films with orchestra starting in March 2022.

Compose Your Own Package Request List

Choose the concerts you want from any VSO regular series (excluding Special Performances) and create a 4, 5, 6, 7 or 10 concert package. The more concerts you buy, the more you save!
